

Sig P320 Compact with X series grip

For Sale \$390 or Trade
(will trade for quality revolver)
Buyer pays transfer if sale

I have this fire arm for several years and have had the complementary factory upgrade to ensure it can't go off if dropped or hit. It comes with 3 grip modules: the standard compact module, x grip with talon grips installed and a subcompact grip module that was slightly altered to fit the chasey. Everything in the picture is included:

- 1 generic iwb holster (it works well)
- 1 unbranded universal leather holster
- 1 Galco Cop Series Holster in great shape

- 1 compact Mag
- 1 subcompact Mag

X Series Manuel (Gun is a compact with an x grip not an x carry but with the upgrade they sent the Manuel, patch, and sticker)
