

FIREARM TRAINING

*The constitution gives you the **RIGHT**,
your loved ones give you the **REASON**,
we give you the skills to use it **RESPONSIBLY**.*

***Owning a firearm won't make you safer. Unless, that is,
you know how to use it safely and effectively.***

I'm Sam Rosenberg, and since 1996 I have made it my mission to empower people to protect themselves and their families with the same skills and tools that elite close protection specialists use to protect public figures.

Our training classes are designed to take you from any level of proficiency (even, in fact, if you've never fired a gun in your life) to rapidly give you the skills and understanding to maintain and deploy it safely in defense of your life or those of your loved ones.

Our priority is not just to ensure you learn the right tactics, but also the right mindset and have the right understanding of the legalities pertaining to use of force.

And of course, we cover practical considerations such as how to select the right guns and gear for you, and how to keep firearms in your home responsibly.
