

Logans Ferry Sportsmen's Club Shooting Ranges

Please Note!

- Eye & Ear protection **MUST** be worn at all times while on ranges. This includes shooters and bystanders. If shooting on the same range with individuals that aren't with you or in our group, it's the shooters responsibility to make sure others are wearing protective gear before you fire. In addition, eye protection is required at all times, for anyone in the vicinity of the ranges. Ricochets can travel great distances, and with high velocity!
- Targets are restricted to: paper, cardboard, wood, Clay Birds, tin cans, soft plastic containers, such as: milk, water, juice bottles. Absolutely no glass or items that leave shards. No household items, such as: computers, TV's furniture, and other appliances.
- When shooting is complete, you must clean up and dispose of all shell casings (including .22's and non-reloadable aluminum and steel cases) from wherever they land...asphalt and other ground surfaces. Remove and dispose of all target materials and debris. Use dumpsters for larger items.
- With the exception of Open Bays 1, 2, 3, and 4 all shooting is to be done from the firing point (Pavilion). No moving down range to engage targets.
- Rental and Cowboy ranges can be used by members when not reserved for a rental. Check the calendar to be sure the ranges are not scheduled to be used.
- **READ and OBSERVE signs that are posted on all ranges and club grounds. Failure to comply with club rules will result in membership suspension or termination.**

*Arrows on diagram denote shooting direction for that range
